On page 2, after the first paragraph, before the amended heading "Detailed Description of the Invention" please add the following headings and paragraphs:

Summary of the Invention

The present invention is directed to a group of 2,4-dihydroxybenzoic acid derivatives, as well as salts, solvates and prodrugs of these compounds. The compounds can be provided in pharmaceutically effective amounts with at least one pharmaceutically acceptable excipient as a pharmaceutical composition. The compositions can be administered for the treatment or prevention of immune diseases and cancer.

Brief Description of the Drawings

Figure 1 is a bar chart showing the results obtained with the compound of Example 6 in the oxazalone-induced delayed hypersensitivity test (Test 1).

Figure 2 is a bar chart showing the results obtained with the compound of Example 6 in the induction of apoptosis in tumor cells test (Test 5).

On page 32, please delete the first three full paragraphs as follows:
